### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is responsive to communications: original application filed 09/12/2003
2. Claims 1-88 are currently pending in this application. Claims 1, 19, 30, 42, 55, and 73 are independent claims.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-18 are drawn to prevention of unauthorized use of data, classified in class 726, subclass 26.
  - II. Claims 19-29 are drawn data processing protection by stored data protection, classified in class 713, subclass 193.
  - III. Claims 30-41 and 42-54 are drawn to multiple computer communications utilizing security kernels, classified in class 713, subclass 164.
  - IV. Claims 55-72 are drawn to multiple computer communications utilizing particular nodes, classified in class 713, subclass 153.

Art Unit: 2134

- V. Claims 73-88 are drawn to file protection, classified in class 713, subclass 165.
4. The inventions are distinct, each from the other because of the following reasons:
- Inventions I through VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as generating indicators indicating successful transfers, (II) has a separate utility such as obtaining control of data input pathways, (III) has a separate utility such as utilizing kernel-mode media, (IV) has a separate utility such as governing media player applications, and (V) has a separate utility such as permitting and presenting media content via client systems and content presentation mechanisms.
5. Because these inventions are distinct from the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
6. Because these inventions are distinct for the reasons given above, the search required for Group I is not required for Groups II, III, IV, or V; and the search for Group II is not required for Groups I, III, IV, or V; and the search for Group III is not required for Groups I, II, IV, or V; and the search for Group IV is not required for Groups I, II, III, or V; and the search for group V is not required for groups I to IV.

Art Unit: 2134

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
